

Food Safety Series

RT-PCR Detection Kits

Qualitative & Quantitative Tests

FEATURES

- ✓ Lyophilized pack for testing anytime.
- ✓ High precision and sensitivity.
- ✓ No cold chain any more.
- ✓ Certificated with CE.
- ✓ Room temperature (below 30°C) storage up to 12 months.

Test Item	Packaging
Detection Kit for Salmonella Nucleic Acid	48 Tests/Tube
Detection Kit for Shigella Nucleic Acid	
Detection Kit for Salmonella and Shigella Nucleic Acid	
Detection Kit for Escherichia Coli (O157:H7) Nucleic Acid	
Detection Kit for Invasive Escherichia Coli (EIEC) Nucleic Acid	
Detection Kit for Pathogenic Escherichia Coli (EPEC) Nucleic Acid	
Detection Kit for Hemorrhagic Escherichia Coli (EHEC) Nucleic Acid	
Detection Kit for Adhesive Escherichia Coli (EAEC) Nucleic Acid	
Detection Kit for Bifidobacterium Nucleic Acid	
Detection Kit for Enterobacter Sakazakii Nucleic Acid	
Detection Kit for Bacillus Cereus Nucleic Acid	
Detection Kit for Clostridium Perfringens Nucleic Acid	
Detection Kit for Vibrio Parahaemolyticus Nucleic Acid	
Detection Kit for Listeria Monocytogenes Nucleic Acid	
Detection Kit for Staphylococcus Aureus Nucleic Acid	
Detection Kit for Yersinia Enterocolitica Nucleic Acid	
Detection Kit for Campylobacter Jejuni Nucleic Acid	
Detection Kit for Neighoronas Shigella-like Nucleic Acid	
Detection Kit for Cryptosporidium Nucleic Acid
